Course Description

This course introduces students to research methods and design in political science. It covers the elementary principles of the scientific method, outlines different approaches to social science research, and presents alternative data-gathering techniques, such as surveys, experiments, content analysis, or field research. Students elaborate a particular research design based on a local, national, or global challenge of their choice.

Course Learning Outcomes

to comprehend the basic building blocks of political science research (research design, the measurement of variables, sampling, data processing, and data analysis)
to demonstrate knowledge of the major types of social research methods (experimentation, survey research, content analysis, and field research)
to prepare a research proposal, using scientific citation style

Attendance Policy

Students studying at The American University of Paris are expected to attend ALL scheduled classes, and in case of absence, should contact their professors to explain the situation. It is the student's responsibility to be aware of any specific attendance policy that a faculty member might have set in the course syllabus. The French Department, for example, has its own attendance policy, and students are responsible for compliance. Academic Affairs will excuse an absence for students' participation in study trips related to their courses.

Attendance at all exams is mandatory.

IN ALL CASES OF MISSED COURSE MEETINGS, THE RESPONSIBILITY FOR COMMUNICATION WITH THE PROFESSOR, AND FOR ARRANGING TO MAKE UP MISSED WORK, RESTS SOLELY WITH THE STUDENT.

Whether an absence is excused or not is ALWAYS up to the discretion of the professor or the department. Unexcused absences can result in a low or failing participation grade. In the case of excessive absences, it is up to the professor or the department to decide if the student will receive an "F" for the course. An instructor may recommend that a student withdraw, if absences have made it impossible to continue in the course at a satisfactory level.

Students must be mindful of this policy when making their travel arrangements, and especially during the Drop/Add and Exam Periods.
